## **SANITY SOLUTIONS BRINGS ABOARD “NEW GENERATION” PARTNER**

Data Domain becomes latest technology partner to join Sanity Solutions

**DENVER, COLO. (May 20, 2008)** – Sanity Solutions, a provider of comprehensive storage equipment and services based in Denver, Colo., recently added Data Domain to its list of technology partners, further strengthening their brand promise to create distinctive value for their clients.

The relationship with Data Domain will benefit Sanity’s clients by reducing or eliminating the use of tape infrastructures with a disk- and network-based data protection alternative, representing a new generation of data versioning and replication efficiency through high-speed inline deduplication technology.

Data Domain will also assist in harnessing data so Sanity’s clients can backup and recover data faster, while purchasing less hardware, keeping costs to a minimum.

Jason Cherveney, chief executive officer of Sanity Solutions, explains, “We chose to work with Data Domain because they are an industry leader in the market they serve. Their wide range of quality products represent yet another means to address the needs of our clients.”

### **About Sanity Solutions, Inc.**

Founded in 2004, Sanity Solutions is a national storage solutions provider that creates distinctive value for every customer. With offices in Denver, Colo., and Phoenix Ariz., Sanity develops complete solutions that eliminate data loss, increase data availability, and lower overall costs based on client needs. As a market leader, Sanity partners with the industry’s foremost storage and data management companies to offer customers the most advanced products as part of a comprehensive storage solution.
