

# Modern Business Starts in the Workplace

**The evolving speed of global business requires that your employees have the tools to stay productive whenever, wherever, and however it's needed.**

The struggle is real: Transforming your workforce involves small shifts in technology that can have huge impacts on everything from costs to productivity, security to mobility, and management to support services. Yet, your employees want freedom from wires, intelligent performance, and access to the data they need anytime and from anywhere, leaving you stuck managing the precarious net difference between profitability and productivity. Consider this:

**95%** of security breaches originate at the end user.

**44%** of employees think their workspace isn't smart enough.

**42%** of users would quit a job over poor technology.

**82%** of job seekers say tech influences which job they take.

Your ability to manage the increasingly complex requirements of this fluid workplace is critical to keep your business running smoothly. Sanity Solutions, a Dell EMC Titanium-level partner, specializes in the comprehensive solutions and services you need to compete in this global market by identifying your unique business needs and creating strategic goals and technical solutions to maximize your investments and results.

## Mobility on Demand

Your employees want simplified, mobile access to work, and you want unparalleled security solutions that allow data to safely move with them. Design your mobility strategy for the way employees really work with Sanity Solutions' desktops and laptops from Dell EMC.

**Latitude 7000 Series:** The most innovative 2-in-1 form factor for high-end professionals

**Latitude 5000 Series:** The most secure 2-in-1 notebook-replacement class tablet

**OptiPlex 5000 Series:** Fully featured commercial desktop with advanced performance, security, and manageability

**OptiPlex 7000 Series:** Ultimate performance for enterprise-class management and security in innovative, compact designs

With the rich screens and great designs, you can attract and retain top talent, increase employee engagement, and provide the most secure mobile experience.

## Right-Sized Management and Services

Behind the IT curtain is where the real magic happens. Any changes to technology come with a host of complexities that involve the management of the PC lifecycle, the automation of your PC deployment process, and how to scale your network on demand. The required resources for any shift can be staggering. Ease your IT management load with Dell EMC solutions from Sanity.

- **Client Command Suite**, Dell's free management tools automate and streamline system deployment, configuration, monitoring, and updates.
- **AirWatch** allows you to manage all users and devices from a single vendor console and drive down the total cost of ownership with desired end-user devices.
- **ProDeploy Client Suite** helps you deploy PCs with greater speed and less effort
- **ProSupport Plus** offers you complete support with minimal effort for PCs and tablets

By minimizing any management hassles, Sanity helps you drive down the total cost of ownership and save hours on the deployment and support.

## Why Sanity Solutions?
