

SANITYRx UPGRADING WINDOWS 10 TO 11

WHY UPGRADE FROM WINDOWS 10 TO WINDOWS 11 >>>>>

With Windows 10 support ending on October 14, 2025, transitioning to Windows 11 is crucial for maintaining a secure, high-performing environment. Windows 11 provides enhanced security, a streamlined user experience, and optimized tools, allowing businesses to stay competitive and secure in the modern workplace.

WHAT HAPPENS IF I DON'T UPGRADE?

On October 14, 2025, the Windows 10 system will reach end-of-support. This means Microsoft will no longer provide security updates, bug fixes, or technical support.

This can result in:

- Increased Security Risks, Reduced Software Compatibility, Decreased System Performance and Reliability
- Can lead to non-compliance for: HIPAA, PCI, GDPR, SOX, NIST, ISO 27001, CJIS, FedRAMP, HITRUST, and more.

HOW LONG DOES THE UPGRADE TAKE?

For most users, the Windows 10 to Windows 11 upgrade will take between 1 to 1.5 hours.

>>>>> HOW WE CAN HELP YOU UPGRADE

If your organization doesn't have the time or resources for this large undertaking, Sanity can help! We offer a streamlined Windows 11 upgrade process that minimizes disruptions, ensures compatibility, and maximizes your investment in new technology. Here's how we support you through each step:

Assessment & Planning

- **Compatibility Check:** Comprehensive hardware and software assessment to ensure device compatibility with Windows 11.
- **Upgrade Roadmap:** Customized migration plan designed to meet your organization's specific needs and timelines.

Secure and Efficient Deployment

- **Seamless Deployment:** Phased rollout approach, with minimal disruption to daily operations.
- **Device Configuration:** Configuration and setup of security policies, applications, and user settings.
- **Validation:** We will validate that the upgrade was successful and daily operations are running smoothly.
